

Course of Global Studies begins in the students' 2nd year of Ichinomiya Nishi High School. On their 1st year, all the students will be trained to use English as a tool of communication. In the 2nd year, 40 students will be selected to be in the course and they will have intensive study of global issues, Japanese and foreign cultures, and communication. They will choose their own research theme and begin their research with the help of teachers. In the last year, they will present their research.

#### CONCEPT of the Course

- Our students will have a better understanding of cultural diversity through direct contact with people in the world, our exchange programs with schools overseas, and our English program.
- Our students will learn about global issues and form their own opinions.
- Our students will be proficient in English as a tool of communication.
- Our students will be encouraged to stay and study overseas, either in a short-term or a long-term basis.
- Our students will have the chance to join the lectures of universities, including national universities in Aichi.

#### Ground Design of the Course
